“

For people, in search of tailored cosmopolitan designs, Esse I 8 faucets, with their high quality, high performance and their irresistible looks, works to create an enchanting bathroom that is modern and timeless. Our designs are a meticulous balance of style and functionality, providing aesthetic consistency throughout the bathroom. The perfect harmony of optimum style and maximum performance makes the Esse I 8 faucets truly innovative for the contemporary bathroom. With a wide range of faucet collection, Esse I 8 offers an amazing source of unmatched quality and timeless beauty.

”

**HIGH QUALITY,
COMPETITIVE PRICES
& PROMPT DELIVERY**

About us

Our story began in the year 1983 when my father Sh. Hari Parkash Garg started a trading company by the name of Hari Sanitation. With all his dedication and hard work, he has made a respectable name in the business of trading.

In the past, he faced many issues regarding the product quality and supply. Hence, in 2010, we ventured into manufacturing as well and transformed Hari Sanitation into **Harisons Bath Impressions**. Our company specializes into the manufacture of faucets sold under the brand name of **ESSE 18**.

From humble beginning, the business has steadily grown and now employs a small team of skilled labour in our own dedicated factory. We, at **ESSE 18**, have direct control on the process of making faucets starting from initial design through final quality inspection and are able to ensure quality assurance faucets the process. There seems to be a direct correlation between having control of the whole process and a low number of defects and, thus, consumer complaints.

We are dedicated to giving you the very best of the product. The courage needed to combine practically with novelty has resulted in pioneering faucets trends that suits to every pocket and translate the idea of Pocket Friendly Premium Bath Faucets into tangible reality. We hope you enjoy our products as much as we enjoy offering to you.

Sincerely

Rahul Garg
